INSIDE THE BOX

workBOX comes equipped with many standard features to create an exceptional user experience.

Ventilation

Integrated air circulation system combines intake and exhaust fans to maximize air flow.

Utility Channel

Central utility channel is removable and designed to accommodate power and ethernet cables, mount video or teleconferencing equipment and controls.

Acoustic Panels

workBOX's sound absorbing panels are manufactured from a combination of recycled material and provide a quiet and secure environment.

Wiring

USB ports and multiple duplex outlets installed to power and charge devices.

Footprint

Provides a flexible, efficient meeting and collaboration space for 4. Unplug and roll easily, occupies only 40 square feet of floorspace.

Flooring

Sound absorbing, durable commercial carpet made from 100 % recycled material.

Panel Design

Interchangeable, removable acoustic panels. Add whiteboards, brushed stainless or custom finishes.

Tables

Select from different tables and desks to create the workBOX environment you need.

Mobility

Effortlessly move your workBOX to create new office layouts any time you want.

Finished Roof

Designed for easy access to electrical, ethernet and fire protection.

Lighting

High quality LED lighting gently illuminates your work space without adding heat.

Durability

Built for stability, strength, and safety the workBOX uses fire resistant materials, heavy duty casters and industrial components designed to last for years.

Productivity

Every workBOX comes with a work surface equipped with power and USB to maximize productivity and comfort. Personalize your workBOX with a height adjustable desk.

Privacy

Sliding glass doors and solid front panels provide the user with visual privacy.
