INSIDE THE BOX

phoneBOX comes equipped with many standard features to create an exceptional user experience.

Ventilation

Three powerful, concealed fans provide best in class air circulation.

Acoustic Panels

phoneBOX's sound absorbing panels are manufactured from a combination of recycled material and provide a quiet and secure environment.

Wiring

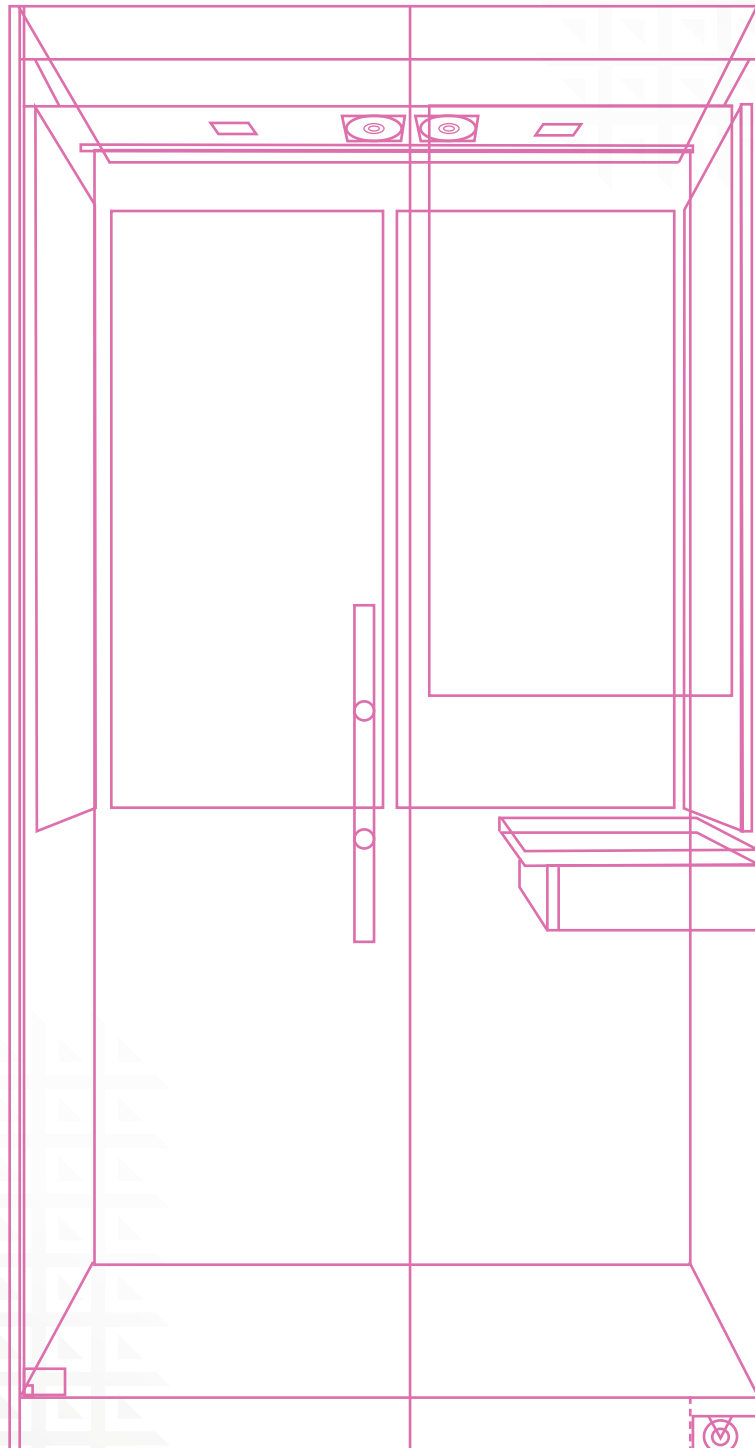

Dual USB ports and duplex outlets installed to power and charge devices.

Footprint

Designed to accommodate one user comfortably, phoneBOX can easily fit into whatever space you have.

Flooring

Sound absorbing, durable commercial carpet made from 100 % recycled material.

Lighting

High quality LED lighting gently illuminates your work space without adding heat.

Durability

Built for stability, strength, and safety, phoneBOX uses fire resistant materials, heavy duty casters and industrious components designed to last for years.

Productivity

Every phoneBOX comes with a work surface equipped with power and USB to maximize productivity and comfort. Personalize your phoneBOX with a height adjustable desk.

Privacy

A tempered glass door and a solid front panel provide the user with visual privacy.

Mobility

Effortlessly move your phoneBOX to create new office layouts any time you want.
